

15-mm Ø quick-release couplings for WHALE hydraulic systems

Main features: exclusive "double seam" design that ensures a secure coupling even under sudden pressure changes, fitted with coupling close to the pipe elbows; does not require a safety clip, thus saving costs and installation time; pipe control marking to ensure a correct coupling; easy to use, does not require expert users for the installation; can be fixed and released without tools or replacement parts; maximum pressure at 20° 12 BAR / maximum pressure at 65° 6 BAR. **Suitable for 15-mm Ø pipes.**

WHALE T-joint				WHALE elbow				WHALE straight fitting							
															
17.815.02				17.815.03				17.815.04							
WHALE BSP 1/2" male adapter				WHALE T-fitting				WHALE fused elbow							
															
17.815.14				17.815.21 This joint coupled together can turn into a clarinet with adjustable outflow.				17.815.22							
WHALE BSP 1/2" male adapter				WHALE BSP 1/2" female adapter (brass)				WHALE shut-off valve (brass)							
															
17.815.32				17.815.33				17.815.75							
WHALE fuse mounting syystem to ice maker (brass)				WHALE 3/8" BSP male adapter				WHALE adaptor size 3/8 BSP female (plastic)							
															
17.815.77				17.815.83				17.815.39							
WHALE adaptor size 3/4" BSP female				WHALE cylindrical joint + male ½ BSP				WHALE Cylindrical joint for 12-mm hose							
															
17.815.40				17.815.87				17.815.84							
WHALE cylindrical joint for flexible pipe size 16 mm				WHALE cylindrical joint for flexible pipe size 20 mm				WHALE cylindrical elbow joint for flexible pipe size 20 mm							
															
17.815.97				17.815.93				17.815.92							
WHALE shut-off valve				WHALE elbow with thread size ½ BSP female				WHALE brass plug							
															
17.815.74				17.815.31				17.815.08							
WHALE plug								WHALE check valve							
															
17.815.46								17.815.82							
WHALE cold water pipe				WHALE hot water pipe				Stainless steel braided pipe suitable for water heating connections
