Maintenance cycle for desalinators

The cycle uses **3 specific products**.

Phase 1 and Phase 2 have to be combined when a drop in performance occurs - usually when diaphragms are incrustated - or once a year.

Phase 3 is recommended when the desalinator is not going to be used for a long time. It prevents deposits and stains.

Not to be used for energy recovery systems (such as SCHENKER, SPECTRA).

The 1-l package is needed for the treatment of any desalinator, no matter the boat.

Phase products have a 20-minute cycle time.

Code	Description	Package l	PACKAGE
65.749.01	Phase 1: for diaphragm washing	1	6
65.749.02	Phase 2: for diaphragm scraping	1	6
65.749.03	Phase 3: diaphragms preserving product	1	6
